Team Type 1

Would you and your family like to attend a "feel good" event that convinces you that anything is possible when you have diabetes?

Please join San Diego's "Meet and Greet" of Team Type 1 as they finish the 750 mile cycling route of the 2009 Amgen Tour of California on Sunday, February 22nd at 2:30 p.m. in Escondido!

The Amgen Tour is the largest cycling event in America. It is a Tour de France-style cycling road race that challenges the world's top professional cycling teams to compete along a demanding course.

Team Type 1 is the only one of 17 teams in the race with riders who have type 1 diabetes. Phil Southerland (diagnosed in 1982 at the age of seven months) and Fabio Calabria (diagnosed in 2000 at the age of 13) will be joined in the nine-day race by Moises Aldape, Chris Jones, Valeriy Kobzarenko, Darren Lill, Ian MacGregor and Matt Wilson. Follow the progress of Team Type 1 as they race across California!

Come meet Team Type 1 after they cross the finish line in Escondido! At this free event, team members will be signing autographs and handing out free stuff at their 40-foot motorcoach, located at the finish line festival at the parking lots southeast of Escondido Boulevard and Woodward Avenue. Supporters are encouraged to bring something to be signed by Team Type 1 team members!

We hope you will join us. If all of the above isn't enough motivation, come see Lance Armstrong who is also participating in the race – his first event since the seven-time Tour de France winner began his comeback!
